

LISA

What attracted you to the trainee placement?

It was to learn something different that I had never thought about before. I had never thought that I would be working in a museum environment and it's been wonderful to learn about the history of the town that you live in.

How have you benefited from the placement?

I've been able to do things that I thought I would never be able to do. I've learnt so much working here and I still learning something different about the museum every day. I've managed to produce pieces of work that I wouldn't have thought I could do.

Why do you recommend people apply?

It gives you the chance to learn on the job and to take you out of your comfort zone to be able to learn something new or different. It means working with a wonderful and helpful staff to help and encourage you throughout your traineeship. It gives a new look on your career and what you want to do with it.
